

# Limefield Medical Practice

More than two years ago, a merger with Newbury Green Medical Practice was under consideration. In the meantime, both Practices have moved premises and Dr Levenson feels that it is in the interests of his patients that he reconsiders a possible merger with Newbury Green Medical Practice. A merged Practice of these two well-respected Practices, based at Newbury Place Health Centre, will benefit patients with greater flexibility of care options. It is expected that the improvements that will be possible for a larger Practice to offer will bring an enhanced experience for our patients.

There will be a greater availability of appointments with a larger number of clinicians, as well as the possibility of increasing the range of services that can be made available to patients.

Limefield Medical Practice is in the process of recruiting two more clinicians, and other planned improvements to the service we offer our patients will continue to be implemented.

We want to know what you, as our patients, think and whether you have any queries that we can help to clarify for you. Please take the time to let us know your thoughts and comments. Anonymous comments/queries are difficult to address, and if we have your name and phone number we have the opportunity to respond and discuss any issue you may have. The outcome of this survey will be publicised. Looking forward to hearing your thoughts.

How do you feel about the merger?

Please tick one of the following

*Please provide your comments here then hand the form to Reception:*
